JANESVILLE, WISCONSIN MONDAY, MARCH 10, 1902

NUMBER 1

BRITISH SUFFER AWFUL DEFEAT

Boer General Delary Captured General Methuen and 1200 Men.

FOUR GUNS TAKEN

Intense Excitement in London When Kitchener Wired News of the Disaster.

SURPRISED BY BOERS

London, March 10.—General Delary has defeated and captured General Methuen. Four guns fell into the hands of the Boers.

This last terrible reverse to British arms in South Africa was announced in the house of commons today.

Methuen's entire force of twelve hundred were taken and Methuen was wounded.

The announcement created the most intense excitement in the house. The

POSITIVE EVIDENCE OF HER MARRIAGE

Certificate Found Among the Belongings of Mrs. August Wehner—Burial at Edgerton Saturday.

The funeral of Mrs. August Wehner formerly Miss Madge Falter, of Edgerton, whose tragic death in a Milwaukee hotel, has been recorded in these columns, was held at St. Joseph's church yesterday afternoon, at Edgerton, the Rev. James E. Harlan, officiating. The church was filled with sorrowing friends and the floral offerings completely covered the casket. The services were peculiarly impressive owing to the circumstances surrounding the death. During his remarks Father Harlan stated that a marriage certificate had been found among the belongings of the dead girl giving positive evidence of her marriage.

This certificate was taken to Archbishop Katzer by the father of the dead girl and the archbishop gave his consent to having the funeral held in the Edgerton church.

Father Harlan did not read the permit from the bishop or the marriage certificate, but stated that he had them in his possession and both could be seen by the proper persons upon application to him.

PRINCE HENRY IS IN PHILADELPHIA

Was Met at the Depot by the Mayor and Committee and Given Free-
dom of the City.

New York, March 10.—Prince Henry and suite left here early this morning for Philadelphia. The early hour prevented a demonstra-
tion.

Philadelphia, Pa., March 10.—Prince Henry and suite arrived here at ten twenty this morning. The trip from New York was without incident.

He was met at the depot by a committee headed by Mayor Ashbridge who extended the freedom of the city, after which he was driven to Independence hall and to the Cramps shipyards. The crowds on the streets cheered lustily.

Whitehead at Kenosha

Kenosha, March 10.—Senator John M. Whitehead was the guest of the Young Men's Christian association yesterday afternoon, and 300 young men heard him deliver an address on "Opportunities." Peter Fisher presided. After the meeting was over Senator Whitehead held an informal reception.

SPOONER ASPIRES TO SUPREME COURT

Washington, March 10.—Senator J. S. Spooner of Wisconsin, according to Washington gossip, may be appointed a Justice of the United States Supreme Court, although the report is vigorously denied by Postmaster General Payne. Mr. Spooner is regarded as one of the ablest lawyers in the upper house of congress. He is especially well versed in constitutional law and has had a hand in framing considerable legislation since he entered the senate. He has had thirty-five years' experience, having been general counsel for the Omaha road, part of the Northwestern system, before going to the capital.

Queen Launches British Ship.

London, March 10.—Queen Alexandra broke a bottle of colonial wine against the stem and wished success to H. M. S. Queen and to all sailing on it. Queen Alexandra then severed the cord which released the great ship in a successful launching. Then, without leaving the platform on which this ceremony had been carried out, King Edward pressed an electric button and a lever arrangement hoisted into the position just vacated the first keel plate of the battleship King Edward VII.

Town Sold for \$1,000.

Bridgeton, N. J., March 10.—The deserted village of Halberton, on the West Jersey railroad, fifteen miles south of Millville, was sold by Sheriff Hendrie to the New Jersey Building Loan and Investment company for \$1,000. The property consists of twenty acres of land, sixteen houses, a schoolhouse and a large cloak factory, all standing empty. Over \$65,000 was sunk in trying to colonize Halberton.

Smallpox at Madison.

Madison, Wis., March 10.—Miss Genevieve McHills of Fond du Lac, a junior in the university and a member of the Kappa Kappa Gamma sorority, is ill with smallpox. The Kappa Kappa Gamma sorority house, in which twenty-five young women are living, has been placed under quarantine. The case is not considered serious.

Offer Aerial Prize.

London, March 10.—C. A. Pearson has, through the Aero Club, offered M. Santos-Dumont £4,000 if he can fly his airoship from London to Birmingham. The competition is open to any other aeronaut who may wish to make the attempt and there is no limit as to time. The distance is about 100 miles.

Seafers On a Strike.

St. Johns, N. F., March 10.—Four thousand seafarers went on strike for higher prices on the product of the season's catch. The strike ties up a fleet of twenty steamships. If the strike continues it will probably result in the total loss of the season's catch.

Rock County Prohibits Meet
The Rock County Prohibitions met this afternoon in the Circuit court room for the purpose of electing seventeen delegates and seventeen alternates to the state convention in Milwaukee, June 18-19. H. A. Palmer of Janesville was elected chairman and S. Kellogg, secretary.

BUSINESS MEN MEET TONIGHT

Committee Report on the Marzluff Shoe Factory Proposition.

RAISING OF \$40,000

Efforts to Prevent Janesville from Losing This Important Concern.

MUST BE DONE QUICK

This evening there will be a meeting of the Business Men's association at the municipal court room to hear the report of the committee having the matter of the F. M. Marzluff Co. shoe factory. It is hoped that the report will be favorable and that the factory may be retained in Janesville. This city can ill afford to lose this factory, which before it burned had the third largest payroll in the line of our industrial institutions. The \$10,000 paid for labor last year nearly all went into the hands of local merchants, and played no small part in the general prosperity of our merchants.

Make High Grade Shoes

Marzluff & Co. are well known as the makers of high grade shoes, for which there is an ever increasing demand. Furthermore the firm is composed of honest men, who discount their bills and liquidate as fast as possible, rendering the matter of assistance in this, the hour of need, one of the smallest possible risk. Marzluff & Co. ask assistance to enable them to start in again on an enlarged scale, one that will reflect credit and benefit alike to the firm and the city. The raising of the \$40,000 desired by the firm is no easy matter and can only be done by many, rather than a few. Let the matter become as popular as possible and all take part.

Anxious to Get to Work

It is also necessary that what is done should be done quickly as other cities are making some very enticing proposals for the removal of the firm. Let there be a good rousing meeting this evening, and a disposition on the part of all to lend a helping hand, let each do a part toward raising the desired amount and the task becomes an easy one.

Mr. Marzluff Is Anxious to Get to Work

that he may get his samples out for the fall trade and this must be done in a few weeks.

Assistance From All

At the meeting to be held this evening all public spirited citizens are invited as well as members of the Business Men's association. The matter has reached that point where the factory can be secured in a short time if all work together, but all who can must render some assistance. Let every merchant and business man in the city turn out and do what he can. Some other business of importance is liable to come up for consideration and a full house is desired.

WAS A PIONEER RAILROAD MAN

W. W. Collins, Who Died at Oconomowoc, Was Trusted by the St. Paul Road.

Oconomowoc, Wis., March 10.—W. W. Collins, agent for the Milwaukee road at Oconomowoc since the station was opened, died at 9:45 Saturday morning from an attack of apoplexy. He had been in feeble health for some time, but his death was not looked for. He was eighty years of age and had lived in Oconomowoc since 1834.

The funeral was held from the residence this afternoon. Many of the Milwaukee road officers attended.

Three of Mr. Collins' sons grew up on the road and made names for themselves. Sumner J., who after some years on the telegraph office at the station went to division headquarters and afterwards became chief train dispatcher, and superintendent of the Prairie du Chien division, general superintendent of the Monon, and also filled the same office for the Wisconsin Central; Wallace G., who began as a bridge watchman and went into the telegraph service, becoming superintendent of the La Crosse division and his father's chief, and on up to general manager, and William W., who passed through the telegraph office and is now division superintendent on the old road, the only one of the sons still with the line.

Mr. Collins was a close friend of President Earling and has always looked upon him as a son. He was also an intimate friend of the older heads who made the road. Alexander Mitchell, S. S. Merrill and H. C. "Hub" Atkins. Mrs. P. C. Eldridge, wife of Supt. Eldridge is a daughter.

A Real Wedding Feast.

The judge of the Blodgett district, near Baes, Wendelin Alber, celebrated a few days ago the wedding of his eldest son. The wedding festivities lasted three days, during which time two oxen, five calves, three pigs, 25 turkeys, 100 geese, 250 hens and 80 loaves of bread were eaten. For the puddings alone 75 kilos of sugar were used. The plentiful feast was washed down by 20 hectolitres of wine.—London Telegraph.

IT AMAZES AND DISGUSTS HER

Mrs. Astor Vigorously De-
nounces Title Worship
by Americans.

RUN AFTER PRINCE

Millionaires from the West
Who Only Reach Edge
of the Smart Set.

ENGLISH ARE LIBERAL

New York, March 10.—The name of Mrs. Astor, New York's social leader, has not been mentioned in connection with the attempt to entertain Prince Henry to the point of exhaustion. Mrs. Astor thus explains it.

"I do not entertain foreigners—or title or otherwise—who come to America unless they bring letters to me. Why should I?"

The interest some Americans take in persons of title amazes and disgusts me. Why, when the Duke of Marlborough came over here to be married, people stood for hours in the rain before his hotel waiting to catch a glimpse of him. They went mad about this little man of no distinction. And the duke himself was so annoyed that he has sworn never again to set foot in America. The Duchess has sometimes spoken of returning but he will not come."

English Society More Liberal

"English society is more liberal than we are in this respect. Irving goes everywhere. And the best artists and literary men also. There are few, very few of these in the smart set of New York. Actresses are generally undesirable. But some of the great singers are received. Miss Eames, for instance, goes everywhere."

Returns Not Asked of All

Regarding the inability of singers of note and others to return the favors received from social leaders, Mrs. Astor said:

"They should not be expected to entertain. Everyone knows that artists live in studios. There are many poor people in the smart set—many who dine with me several times a winter and from whom I expect no return. Others, not possessing millions, take room at Sherry's, and toward the end of the season, give perhaps, one or two little dinners to eight or ten persons.

"It is a mistake to think that everybody in the smart set is wealthy. There are, of course, rich people from the West of whom one reads that they have so many thousand millions, who go down to Newport, spend money lavishly, and get a questionable footing on the edge of society. I have not met them. But, of course, they are not desirable."

Poor Opinion of Some Millionaires

"The men who have amassed their millions in all sorts of ways have not had advantages in their youth. They have never had the college education, without which no man can be a gentleman. They come here and build large houses, filled with ill-assorted splendid things. They are either too pushing or too shy, and stand around silently in corners, not knowing what to do or say."

WM. L. MOODY WILL SUCCEED LONG

President Roosevelt Names Massa-
chusetts Congressman To Be
Next Secretary of Navy.

Washington, D. C., March 10.—The President has tendered to Representative William L. Moody of Massachusetts the appointment of Secretary of the Navy. Mr. Moody has accepted the portfolio and will enter upon the discharge of his new duties on May 1.

Today Secretary Long will place in the hands of the president his letter resigning his portfolio, the resignation to take effect on May 1. It is probable that immediately after the receipt of that letter the announcement will be made at the White House that Mr. Moody will be his successor.

Fire Destroys Arsenal.

Paris, March 10.—Fire at the govern-
ment arsenal at L'Oréon. In the Bay

of Biscay, destroyed a number of im-
portant documents, including plans

and confidential reports.

Self-Supporting Pueblo Indians.

There are about 8,000 self-supporting Southern Pueblo Indians in twenty-six vil-
lages, twenty of which have day schools, costing the United States not less than \$20,000 annually, besides the much larger sum expended upon the boarding schools.

Self-Sacrificing Mosquitoes.

A Port Jervis, N. Y., paper says that while getting railroad ties near that place, Abe Morehouse was bitten in the leg by a rattlesnake. A doctor was at once sent for. When he arrived the bandages were taken off, and as soon as the leg was bare a swarm of mosquitoes lighted on it. In a few minutes the ground was covered with dead and dying mosquitoes. They had sucked the poison of the wound and saved Mr. Morehouse's life.

GREAT STRIKE ON IN CITY OF BOSTON

About 9,000 Workmen Quit Work
This Morning—Due to the
Teamsters' Union.

Boston, Mass., March 10.—The worst strike in the recent history of Boston was inaugurated here this morning. At a prolonged meeting last night of team drivers' union No. 25, which has more than 6,000 members, it was voted by an overwhelming majority not to take a single team out of a stable this morning, except such as are needed to haul white paper for newspapers and milk for hospitals.

The Express Drivers' union voted not to handle a single package consigned to any point on either the Boston and Albany or New York, New Haven and Hartford railroads. The three unions of longshoremen voted not to handle any goods for these two railroads. Their freight handlers in these roads' sheds will decline to handle any goods of any kind.

Thus in addition to the 6,000 members of Union No. 25, about 3,000 other men engaged in the transportation business are practically on a strike and until the dispute is settled business of all kinds in Boston will be paralyzed.

Scenes of rioting and violence even

more serious than marked the recent

strike are anticipated and every po-
liceman in the city was ordered on duty this morning.

RELIGIOUS CRISIS IN UNITED STATES

Foreign Element Causes Danger of
Sabbath Desecration—Increase
of Places of Amusement.

New York, March 10.—"The Religious Crisis in America" was the topic of the Rev. Dr. George C. Lorimer, pastor of the Madison avenue Baptist church yesterday. He said: "In the last hundred years more than 23,000,000 foreigners have come to our shores. They are still coming. The majority are not from Scotland, England, Ireland and the north of Europe, but they are Magyars, or are from Italy and southern Europe, and have no inclination to our belief."

"From all this result two grave dangers—desecration of the Sabbath and increase in the places of amusement. We live for money by day and pleasure by night. I have no fear in saying that, at the present rate at which we are living, in fifty years we will have no Sabbath. And the saloons? It will no longer be a question of opening them for a few hours on Sunday, but they will be open every minute of the week."

"The crisis is real. It is not confined to New York alone, but to the whole nation, from ocean to ocean. The condition is such that it breaks a minister's heart."

GRUDGE LEADS TO DEATH.

Hotelkeeper Is Killed by Farmhand
Whom He Threatened.

Mattoon, Ill., March 10.—As a result of a desperate affray which occurred at Humboldt, twelve miles north of this city, William Mull, 50 years old, proprietor of the Mull hotel, was killed. Amos Melick, a powerful young farmhand, who administered a terrible beating to him with a club, will claim self-defense. The affray was due to the revival of a political grudge, which dates back to the last presidential election. Mull had a difference with a man at the polls and Melick interfered. When Mull turned on the latter he was struck with a scale weight. Mull had been drinking heavily recently and is said to have declared to Melick that for the assault on election day he should have been killed. Melick made a taunting reply and the hotel keeper started for a weapon. He returned and met Melick, who picked up a heavy piece of timber and wielded it with deadly accuracy. Several years ago Mull sought to kill Deputy Game Warden Simpson Loveless, but Loveless shot Mull through the body. His remarkable constitution enabled him to recover.

TWELVE DIE IN TEXAS WRECK.

Southern Pacific Officials Declare All
Have Been Accounted For.

San Francisco, March 10.—Officials of the Southern Pacific say that all persons on the train wrecked near Maxon, Tex., have been accounted for and that the dead number twelve, as follows: H. Bertscholat, A. L. Boone, Estevan Contreras, infant child of O. E. House of Racine, Wis., Al Mast, three children of Mart Riddle, Chetopa, Kas., Mrs. A. C. Shelby and infant child, Mr. and Mrs. White of Manitowoc, Wis.

SCOTCH REFORMER,
REV. JOHN KNOX

Biographical Sermon on the Man Who Founded Presbyterian Faith, by Rev. J. T. Henderson.

Last evening at the Presbyterian church Rev. J. T. Henderson gave the last of a series of sermons on the great reformers and tools for his sketch the life of the great Scotch reformer, John Knox. John Knox was born at Haddington, Scotland, in 1505, soon after the death of the great German reformer, Martin Luther, and the minds of the people were awakening to greater enlightenment in religious matters. The printing press had also made the printing of the Bible and other books possible and at a price far below those of the previous centuries. Young Knox received a liberal education at his native town and at the university of Glasgow.

The martyrdom of Wishart in 1546 was the turning point in the spiritual life of Knox, causing him to renounce scholastic faith and embrace Protestantism. This subjected him to suspicion and he went to the castle of St. Andrew as a retreat from the Romish clergy, and it was there at a public meeting that Young Knox resolved to enter the ministry, after having educated himself for a teacher.

He began his labors at a time when the Scottish people were very ignorant, but the reformation in that country was less bloody than in many others. While the ignorance of the people was simply appalling the people had a strong desire for education, and it might be truly said education, liberty and true religion had their birth in the little nation of Scotland during the reformation.

Knox may be termed the founder of the Presbyterian faith. He had a great knowledge of the Bible and had great influence with King Edward VI. He called attention to the fact that the nobility was largely with the Catholic church. At times he was in danger of his life and displayed some timidity but never swerved from his pathway toward reform.

He was captured at St. Andrews by Scotch Catholics and held a prisoner for eighteen months and suffered a serious illness, but recovered and was released in 1549, through the intercession of King Edward, with whom Knox had great influence.

Knox preached in Berwick, New Castle and London until the death of King Edward in 1553. He preached with great fervor and zeal, exposing the errors of Romanism with great fervor. After the death of King Edward, Knox sought refuge for a time in France and Switzerland and his enforced idleness gave him time to formulate the great faith that is the basis of the Presbyterian church.

Knox returned to Edinburgh to preach. The charge that Knox treated his sovereign, the widowed Mary, with rudeness and disrespect have been thoroughly disproved. Mary is said to have feared Knox greatly when he prayed and nothing Knox feared more than a man said by his youthful and fair queen. Knox lived for the simple truth as he saw it, and the perfect system of faith.

Rev. Henderson thanked God for this man and the splendid Scotland from whence comes this God fearing religion. The reverend gentleman told of the coming of the Presbyterians from the various parts of Europe who founded churches in this country and gave some interesting facts regarding the manner and influence of the great reformer. During the exercises of the evening Mrs. J. G. Rexford sang, by request, "Just for Today," in her peculiarly sweet manner.

Congregational Church Notes

The morning audience at the Congregational church was large. Pastor Denison preached an eloquent sermon on "The Place of Prayer in Modern Life." In the evening he made an interesting talk on "The Man Who Refused Help."

The children's choir meets for rehearsal on Friday afternoon at 4 o'clock.

The Ladies' Benevolent Society meets on Friday afternoon at two o'clock.

The Covenant Club will meet at

The Dog Knows

That there is something wrong with his master. They have no more romps and rambles. He tries in vain to coax the listless youth from his chair.

When the lungs are diseased, physical weakness soon begins to show itself and the active outdoor life is given up. Dr. Pierce's Golden Medical Discovery cures diseases of the lungs and other organs of respiration. It cures obstinate, deep-seated coughs, bleeding lungs, emaciation, and other conditions which if neglected or unskillfully treated may find a fatal termination in consumption.

After using about five bottles of Dr. Pierce's Golden Medical Discovery my boy seems to be all right," writes Mr. W. C. Clark, Mount Gilead, Ohio. "He was very bad when I commenced to give him the 'Golden Medical Discovery.' The doctors claimed he had consumption and we doctor'd with them until he was past walking. It has been ten months since he stopped taking your medicine and he is in good health. We are very thankful to you for saving our son."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood, and lungs. Substitution means a little more profit for the dealer but a loss for you.

Dr. Pierce's Pleasant Pellets cure constipation and its consequences.

the parsonage on Tuesday afternoon at four o'clock.

The builders' report progresses on the organ though the exact date when it will be ready cannot be given as yet.

Mr. and Mrs. Denison will be at home on Friday afternoons and evenings hereafter and will be glad to see any of their friends.

The Monday club meets this evening in the club room. The subject is the Great Conflict of the Middle Ages. Mr. Matheson will lead.

The Ladies' Missionary societies meet on Thursday afternoon. The program will be opened promptly at three o'clock.

The Loan Band of King's Daughters will meet Tuesday evening in the parlors. Miss Sewall, the State Secretary of the W. B. M. S. will speak on the Missionaries of the Board. Picnic tea at six o'clock.

The subject of the mid-week meeting will be Christian Work and the Future of the South.

Madame:—In reply to your note will say, give your children Rocky Mountain Tea each week. Keeps them well all the time. 35 cents Smith's Pharmacy, Kodak agents.

CITY NEWS IN BRIEF

Foreman George Nicholson of the C. & N. W. blacksmith shop got a clinder in his eye and had to lay off Saturday.

Rev. A. F. Britten of Detroit, Mich., gives a fine lecture at Good Templars' hall this evening at 7:30 o'clock, Rev. Britten is one of the most interesting of speakers.

Perry M. Webster who was the conductor of the Golf club minstrels, left for Beloit, Saturday evening, where he will get up an entertainment similar to the one held here.

Geo. Charlton, the well known stock buyer departed last evening for Chicago with fifty as good fat steers as were ever shipped out of Janesville. Some of these cattle were purchased of the Youngclaus Brothers on Rock Prairie and the others west of Janesville.

Harlan A. Fitch, who for several months has been manager of the local office of the Postal Telegraph Cable Co., has been transferred to the main office of the same company at Memphis, Tenn., on account of poor health. Mr. Fitch is succeeded by Miss Estella Wilkins, of Cedar Falls, Iowa.

Some Farm Notes.

No person can be found who will do better by a motherless pig than the woman folks on the farm. They have the practical and helpful qualifications for rearing the runt pig or any other pig, and it is to be regretted that some of these women have to live with an old hog, who will sell that same pig and buy tobacco with the proceeds.

The stock yard is no place for the little pig. It will get there by and by if it is cared for as it should be while it is very small.

Once or twice every year the broom corn men get together and get the stock cornered and then they sweep the market, as it were. Raising broom corn requires special culture and it is not generally grown. There is no good reason why more of it should not be grown.

The western farmer certainly has a seat at the first table. The man who is owner of a good productive farm that will sell from \$75 to \$100 per acre will not have to wait for the second table, neither will he have to wait for a buyer very long if he places his farm on the market. A man who has no use for so much money, and who may have use for a farm, has better who desire to buy at such prices know what they want and they know what they are getting when they get one of these farms.

To one who has seen so much of buffalo grass growing in its original haunts it would be curious to know where the western man procured so much of this same buffalo grass seed to fill a contract with some eastern seedsmen. Since Buffalo grass does not produce seed it would seem that the eastern seedsmen was being defrauded. He may not know it, neither may he care should he know it, for he will sell the seed to his unsuspecting customers who would like to get a stand of this grass in their pastures.

The farmer who talks for and not against his vocation is doing better than the fellow who is always harping against the business. The man who talks about his business and favors it, will be found running his business, while the other fellow may be in a position where his business runs him. The western farmer is striving to succeed and he has but little use for hawks and growlers.

The man who has a harrow that satisfies him ought to be pleased, provided he has the advanced idea of what a harrow should be. Some harrows will be admired for the area they cover and others for the quality of work they will perform. Others will buy with a view to durability and ease of handling, and thus it will range all along the various conditions governing the value of a harrow.

Seeding time will peep over the fence one of these days and it will find many farmers not ready. The way to be ready is to get ready.

The man who is breeding good draft horses is entitled to the place he has attained. It takes intelligence and perseverance to produce good draft horses. The man who has them to sell now is getting satisfactory prices.

The should always be a "place for everything," but if everything is out of place it will be about as handy as it were no place.

When the water gets very low in the cistern as it usually is before the spring rains come in, it should be cleaned out. I never fancied the use of cistern water for drinking purposes.

Summer's heat cannot be carried into the winter to be made available, but winter's cold can be carried over to summer and made to do duty in the shape of ice. A chunk of ice in the summer is worth two in the winter.

Go a little slow in buying hedge plants and new varieties of various kinds of fruit. Hedge plants are grown now for sale and not so much for hedges. New varieties of fruits and vegetables are propagated for talking purposes for the most part. There is now and then a meritorious new variety of some kind of fruit. It is well enough to be strangers to such schemes until they are well established.

Soil can be made too rich in some elements for oats, but no one has succeeded in making soil to rich for rhubarb.

CRUCIFIED CHRIST FOR LOVE OF GOLD

Romans, Not Jews, Were Responsible for the Death of Jesus on the Cross.

"The Crucifixion of Christ was the result of conspiracy between the pilfering, parasitical priests and their allies, the Roman authorities. This combination of hypocritical priests and corrupt government officials was as great a drain upon the people of those days as are the modern captains of our monopolized industries. The priests saw in Jesus a dangerous opponent of their shameful methods. Hence they branded him anarchist and put him to a most ignominious death." Thus concluded Dr. Emil G. Hirsch in his address on "Why Was Jesus Crucified?" delivered to a large audience at Temple Israel, Forty-fourth street and St. Lawrence avenue, in Chicago Saturday night.

"Christ touched the greedy, materialistic priests in a tender spot," said Dr. Hirsch, "when, on entering the temple, He overturned their tables and drove the money-changers out, exclaiming that His house was to be a house of prayer and not a den for thieves. The priests thenceforth saw in the courageous Nazarene an enemy whose truthful tongue should be forever stilled by death."

"One has but to read the Bible intelligently to learn conclusively that the Jews had absolutely no part in the legalized murder of Christ. The very word 'cruelty' is not known in the Jewish language. Crucifixion upon the cross was the Roman method of execution. The trial of Jesus was in violation of every established Jewish law. Christ was crucified on the eve of the Passover festival, we are told by the Bible in one place. In another the time is said to have been on the day of the festival. It is a principle of Jewish law that an execution cannot take place either on the eve or the day of the Passover festival, nor upon the 'Sabbath' day.

"The Roman Empire, the historical robber of all ages, lent its soldiers to the priests to force the collection of their unjust revenue. Hence the lust for gold was directly responsible for the crucifixion of Christ, who denounced the greed.

"Yet, in the face of this abundance of evidence showing who the real murderers of Christ were, the boys of the streets of the world today, cry out at the passing Jew, 'Christ Killer!'"

AMUSEMENT NOTES.

An extraordinary event in our local theatrical season will be the coming of the famous Chicago comic opera success, "King Dodo" to the Myers Grand on Wednesday March 12. "King Dodo" stands pre-eminent today among all native successes of its kind, and the only foreign parallel is the English production of "Floradora."

What "Floradora" has been to the East, "King Dodo" has been to the West. In Chicago, where it was originally produced it broke all records of long runs in the Western Metropolis by playing five months consecutively to capacity audiences. It is a mad revel of rollicking fun and sparkling music, surrounded by a remarkable exposition of scenic sumptuousness, surpassing in perfection of detail and resplendent ensemble all previous attempts at artistic effect in stage dressing and display of richness and taste in costume designing. The organization includes host of talented players, and an augmented orchestra is necessary to give the music its proper effect. The engagement should be a noticeable event.

"The Power Behind the Throne," one of the most successful romantic dramas ever produced is booked for appearance in this city later in the season. This splendid play is from the pen of Theodore Kremer and is an adaption of Schiller's splendid classic, "Kabale und Liebe." It is acted by a company of twenty-five well known actors and is magnificently mounted, the scenery, costumes and functions being noteworthy for costliness and good taste.

We are glad to announce that arrangements have just been made to bring the famous New England play, "The Village Postmaster" to this theatre at an early date. The production will be given exactly as during the long runs of 227 nights in New York and 125 nights in Chicago. All the special scenery and valuable properties of this production being carried with the company. "The Village Postmaster" is without doubt the most successful of all rural plays. It is filled with the very brightest and best of comedy, with little touches of pathos here and there and the Chicago "Inter Ocean" on Monday, May 20th, 1901, said: "It outclasses all other country plays put together."

THROW BODIES IN THE RIVER.

Five Victims in a Little Over a Month
Causes Activity in Police Ranks and
Eighteen Tramps Are Placed in Jail
on Suspicion.

Beaumont, Tex., March 10.—By the finding of another body of a murdered man in the waters of the Neches river the officials of Beaumont have become convinced that an organized band of robbers who kill their victims to cover up their crimes is operating in and about this city. This makes the fifth murder of the kind to be discovered within a little over a month. In each case the victim's head was smashed in with a club, apparently, the corpse was robbed and then thrown into the river in one of the eastern suburbs.

Whether the gang confines its operations to local residents or whether it lures its victims from other cities are questions the police cannot answer, for three of the bodies recovered have been mutilated beyond possibility of identification. Excitement is at fever heat and citizens are joining with the officials in an effort to clear up the mystery.

The last body found is that of a man about 45 years of age. It had lain in the water perhaps thirty days. Every pocket in the clothing had been rifled and the skull and jaws were crushed in by blows. There was not a mark or scrap of paper about the body by which it could be identified, but the wounds in the head made it apparent that the man had met his death at the hands of a gang of murderers. Death was brought about in exactly the same manner as in the cases of the other four victims previously taken from the river.

One of the bodies recently found was that of Patrick Fitzpatrick, who had been missing for nearly three weeks. It was identified by a peculiar ring worn upon one of the fingers.

Another body was that of Benjamin Pearson, night watchman at the Neches Iron works.

Pearson had been missing for ten days. He had about \$100 and a gold watch on his person. When the body was taken from the river the watch and money were gone. The skull was crushed in and the face mutilated.

At the finding of the fifth body every officer in the town was set to work on the mystery, and eighteen tramps who have been living in the river bottoms opposite the city were arrested and locked up on suspicion that they are at the bottom of the series of crimes. The sheriff and other officers are so busy that it is impossible to learn from them what evidence they have against the prisoners.

Klumpp Maintains His Innocence.
Grand Rapids, Mich., March 10.—William Klumpp, suspected of the murder of his wife, was visited by his brother, Christ Klumpp, and the brother urged him to tell the officers all he knew if thereby he could aid in the solution of the mystery, and to confess. If he himself were guilty or had any knowledge of who sent the poisonous headache powders to his wife. The prisoner protested that it was his earnest desire to discover the murderer, and that he had already told the officers everything.

Roughs Asault Reformers.
Negaunee, Mich., March 10.—As a result of the organization of the Civic Federation league here last week the Rev. C. M. Gilchrist, pastor of the Methodist church, and Louis F. Pearce, a member of the league and school board, received rough treatment at the hands of a crowd of men. They would have been severely dealt with had not three policemen with drawn revolvers come to their aid.

Baptized in the River Jordan.
Middletown, N. Y., March 10.—Word has reached here that Cornelius Van Ness, the octogenarian millionaire of Port Jervis, formerly of New York, has been baptized in the River Jordan by Rev. William K. Hall of Newburg, N. Y. Mr. and Mrs. Van Ness sailed on the steamer Celtic for a trip to the Orient, his desire being to gratify an ambition of years to be baptized in the Jordan.

Eastern Homeseekers Warned.
Butte, Mont., March 10.—The Western Labor Union, representing organized labor in all western and northwestern states, has issued a letter to homeseekers and laboring men in the east warning them against the inducements of railroad companies to come west, denouncing the act as false and criminal.

Sale of Shorthorns.
Kansas City, Mo., March 10.—One of the most notable sales of shorthorns in the history of cattle breeding in the West will take place in Kansas City March 19, when the entire herd of W. R. Nelson, who is retiring from the business, will be offered.

Western Writers' Convention.
Indianapolis, Ind., March 10.—The executive committee of the Western Association of Writers met here and selected Winona as the place for holding the annual meeting of the association, June 23 being selected as the date.

Miss Elizabeth and William Kennedy are visiting in Chicago.

SPARKS FROM THE WIRES.

Too Late to Get a Bride.
Hartville, Mo., March 10.—Charles Walstrom, a farmer of Wood township, Wright county, secured a license to marry Miss Nellie Cover of Chicago. Their engagement was the result of a correspondence through the agency of a matrimonial bureau. Miss Cover arrived, but her fiance was not present, to her great surprise. She went to the hotel and, when Walstrom came in, she announced that the wedding was indefinitely postponed.

Blaze at Bloomington.

Bloomington, Ill., March 10.—The business district of Bloomington was threatened yesterday by a blaze in the Eddy building on North Main street, a large office and store structure. By desperate work the firemen kept the flames confined to the fourth floor, where it started, but were forced to flood the structure, causing water damage. The loss will be about \$30,000, well insured.

Object to Pesthouse.

Fort Wayne, Ind., March 10.—Several score of people living in the neighborhood of the Abbot Sanitarium gathered about the place when the health officers appeared to arrange it for the smallpox hospital and by their threats prevented for a time their entrance into the building. The police were notified and a detail sent to the place succeeded in dispersing the mob.

Will Christen Ship with Water.

Topeka, Kan., March 10.—Miss Lola Lowther, daughter of the Rev. G. Lowther of the M. E. church at McPherson, will christen the new lake steamer S. H. Wilkinson at Chicago. Miss Lowther is opposed to the use of champagne in this exercise and will therefore take with her a bottle of Kansas water.

Discover Boer Magazine.

London, March 10.—A Boer magazine was discovered in a cave northeast of Reitz which contained 300,000 rounds of Martini and 10,000 rounds of Lee-Metford ammunition, several hundred shells, a complete Maxim gun, and two helios.

Marconi at Montreal.

Montreal, March 10.—Signor Marconi has arrived here en route to Ottawa. He expects to leave for Sidney next week after making arrangements with the Canadian government and local firms for the necessary equipment for his station.

Bishop Spalding Is Dead.

Erie, Pa., March 10.—Bishop Spalding of the Episcopal diocese of Colorado died here in his eighty-fifth year of pneumonia. He leaves a widow and son—Rev. F. Spalding, rector of St. Paul's church, this city.

Laetare Medal for Dr. Murphy.

Notre Dame, Ind., March 10.—Yesterday's announcement was formally made of the bestowal of the Laetare medal upon Dr. J. B. Murphy of Chicago.

Kansas Furniture Store Burned.

Seneca, Kas., March 10.—Fire destroyed the furniture store of Mason Brothers and adjoining property. Loss, \$25,000.

INTENSE SUFFERING.

From Dyspepsia and Stomach Trouble. Instantly Relieved and Permanently Cured by Stuart's Dyspepsia Tablets

A New Discovery, but Not a Patent Medicine.

Dr. Redwell relates an interesting account of what he considers a remarkable case of acute stomach trouble and chronic dyspepsia by the use of the new discovery, Stuart's Dyspepsia Tablets.

He says: "The patient was a man who had suffered, to my knowledge, for years with dyspepsia. Everything

he ate seemed to sour and create gases in the stomach. He had pains like rheumatism in the back, shoulder blades and limbs, fullness and distress after eating, poor appetite and loss of flesh; the heart became affected, causing palpitation and sleeplessness at night.

"I gave him powerful nerve tonics and blood remedies, but to no purpose. As an experiment I finally bought a 50c package of Stuart's Dyspepsia Tablets at a drug store and gave them to him. Almost immediately relieve was given, and after he had used four boxes he was to all appearances fully cured.

"There was no more acidity or sour, watery risings, no bloating after meals than the appetite was vigorous and he has gained between ten and twelve pounds in weight of solid, healthy flesh.

"Although Stuart's Dyspepsia Tablets are advertised and sold in drug stores, yet I consider them a most valuable addition to any physician's line of remedies, as they are perfectly harmless and can be given to children or invalids or in any condition of the stomach with perfect safety.

WEATHER FORECAST.

Partly cloudy tonight, Tuesday showers.

AMEND THE CONSTITUTION.

At the last state convention, an amendment to the constitution, relating to the salary of the State School Superintendent, was voted down. This action was largely the result of ignorance and indifference. The vote on the question was very light, and it was defeated by a small majority. Superintendent Harvey, the present incumbent of the office, was invited to address the State Press Association at the annual winter meeting held in Milwaukee, last week, and it is safe to say that the newspapers of the state have a better understanding of the question.

Mr. Harvey claimed that the office was not political, and that it was too important to be in any sense partisan. There are defects in the law, aside from the amendment sought to correct, and which are certainly serious. Any man who aspires to the position, whether competent or not, is illegible. He may or may not be an educator, and yet he is placed at the head of the educational interests of the state, clothed with unlimited authority. The office is professional and not political. Mr. Harvey argued that the state superintendent should be elected at the spring elections, and that his tenure of office should be four years, dating from July first. The reasons given were strong, and will be appreciated by all thoughtful people. Under present conditions he enters upon duties with which he is wholly unfamiliar, surrounded by a new legislature. Questions are referred to him every day, and advice sought which he is totally incompetent to furnish. Had he been in office six months, some knowledge of wants and conditions would have been obtained.

The spring election would be comparatively free from politics, and with only one state officer to elect, closer attention would be given to candidates. There was a great deal of force to the argument, and it is entitled to careful and intelligent consideration.

The matter of compensation, should have been remedied long ago, and would have been, but for the fact that it requires an amendment to the state constitution.

When this document was framed, back in the years of early statehood, the school question had not assumed much importance, and the salary of \$1,200 was doubtless sufficient for the work required. But the state has made rapid strides, and with a population of 500,000 school children, and an army of 20,000 teachers, it is the height of folly to expect a man to direct this most important of all state work, on a salary so meager.

The result is, that in order to secure men who are in any way qualified for the work, funds from other departments were used to create a salary amounting with the \$1,200 to something like \$4,600 a year. The state of Wisconsin, with its intelligence and common sense, can hardly afford to encourage this sort of business. The constitution should be changed, and the salary fixed at a price commensurate with the importance of the office.

It is quite likely that the question will again be submitted to the people at the fall election and if it is, it should receive the consideration to which it is entitled.

THE PRESS AND THE TARIFF.

The action of the Wisconsin Press Association, in adopting a memorial to congress, regarding trusts and corporations in general, and the paper trust in particular, will carry but little weight, because the action was ill-timed and the preamble which was characteristic of the man who prepared it, was too full of glittering generalities to be at all practical. It was difficult to tell whether combinations or the tariff was the target.

The supreme court is already dealing with the former, and the latter is in the hands of a congress that understands thoroughly the policy of the late President McKinley, as well as the desire of President Roosevelt to see this policy carried out. The tariff is a large question to consider. It was said when the Dingley law was passed that it would have been wise if a provision had been included, which would bar all tariff tinkering for ten years. Under its wise provisions American industries have been stimulated, and the nation has forged to the front with rapid stride. Conditions of course have changed, but the change has always been for the better.

It is perfectly natural, when an industry feels the pressure, either through too much or too little tariff that complaint should be made as is the case with sugar and tobacco, when Cuba, while the Cuban tariff is under discussion and with paper, when the Canadian product is waiting for admission. In both cases, reciprocal trade relations should be established, which would remedy the evil.

While the "Hick's" resolution was adopted, many men felt that it was unwise to introduce a purely political question, into a non-partisan association, and it will not be at all surprising if results are unsatisfactory, as the door is opened for a variety,

of measures that will not contribute to the welfare of the organization.

THE UNIVERSITY PRESIDENT
The board of university regents, will of course use their own judgment in selecting a president for the State institution. There are one or two things which the board should consider, outside of educational qualifications, which of course are important. The State University belongs to the people of the state. The relations between the school and the people, in every department, should be the most friendly. It should be so conducted that the masses, and not the limited class, who share directly in its benefits, should take a lively interest in its welfare. The University is regarded by many people as a monument of folly, and this feeling prevails largely through ignorance and prejudice. Some one is responsible for these conditions, and the responsibility can not be charged to the people. The management, through methods that are more or less secretive, have surrounded the state school with an atmosphere of mystery that has invited criticism. Where the people are called upon to contribute liberally for the state institutions, whether they be penal or educational, they have a right to share the confidence of their servants, who spend the money.

The new president of the University should be a man who can do more than preside over the several departments. What is needed more than any other one thing, is a man who can put the school in close touch with the masses. A man who is more than a professional educator. Such men are to be found without going beyond the borders of the state. The present State Superintendent, L. D. Harvey, belongs to this class. Mr. Harvey possesses not only the educational ability, but he is intensely interested in the best welfare of the state. He enjoys in a rare degree the respect and confidence of the people. He has no theories to exploit, but is practical in his work and methods, and better qualified both for the University and the people, than any man who may be imported, simply because he is an educator. The people of the state, irrespective of party, would be pleased to see Superintendent Harvey placed at the head of the State University. His choice would mean more than a well conducted school. It would mean, in addition to this important requirement, the intelligent and practical cooperation of the people. The board of regents will make no mistake in selecting Mr. Harvey.

THE MARZLUFF CO.
In another column will be noticed a call for a meeting of the Business Men's Association to bear a report of the committee which has been working in the interests of the Marzluff Co. The meeting should be well attended. The Gazette understands that the outlook is encouraging. The industry belongs in Janesville and is a benefit directly or indirectly, to every citizen. The city of Kenosha, which two years ago lost a bicycle factory, which employed 900 men, recently secured an automobile industry to occupy the old plant, and today there isn't a vacant house in the city. Janesville needs more manufacturers, and they can be secured by well directed effort. Many concerns are leaving Chicago and the large cities on account of labor troubles. The Marzluff factory should be put on its feet, and the good work should extend until the Bower City rivals the Line City on industries.

Milwaukee entertained the newspapermen of the state most royally, and the city will receive a liberal amount of advertising as the result. The city is noted for open handed hospitality, and is a credit to the state.

While 300 newspapers were represented in Milwaukee last week, politics was not mentioned. It was an old time love feast. If the republican party could harmonize as well, it would be a good thing for all interests.

In another part of the paper will be noticed an article from the president of the New York Anti-Viscetion society, which will be read with interest. Public sentiment is being aroused on this important question.

PRESS COMMENT.

Hudson Star and Times: Never was there brought into public prominence in political affairs a man who has commanded higher respect from friend and foe alike than John M. Whitehead. Whether he shall ever become governor of Wisconsin or not, it is a distinct benefit to the people to point them with pride to so clean, so able, so well poised a leader, at a time when selfishness is so rampant, vindictiveness so far reaching and demagogic methods so captivating to the listless crowd.

Lake Geneva Herald: In a recent open letter, to the Republicans of Wisconsin, John M. Whitehead accepts the call and states that he will be a candidate for the office of governor, subject to the action of the Republican state convention. Whitehead is a good, honest man, clean and efficient. Now let there be no flute in his nomination. The people like him, whether the politicians do or not.

Racine News: An ambitious advertiser not long ago offered the government \$50,000 for the privilege of having his face printed on one year's issue of postage stamps. The motives of trade and made no secret of it, his offer being for advertising purposes, pure and simple. It was, of course,

never seriously entertained, but it would have meant his likeness published in the biggest circulation of the country.

Oshkosh Northwestern: There are many strong arguments in favor of government ownership of a Pacific cable but there is also good reason for a careful consideration of the offer of the Pacific Cable company which proposes to lay cable entirely at its own expense and reduce the present cost of messages to the Philippines and China nearly fifty per cent, provided the government will merely grant the necessary franchise and permission to go ahead with the work.

Beloit Free Press: Ex-President Grover Cleveland's prayer is that he may live to see those happy days when our grand old party will shake off the dreadful dreams that have afflicted, and fight again, as of old, the glorious battles of pure Democracy.

Racine Journal: The Madison Journal says in a normal condition of politics, Mr. Whitehead's candidacy would compel the support of every citizen. This is very kind of the Journal. But impelling reasons convince most Republicans he is the very man to now nominate.

Ashland Press: South Carolina might improve its legislative status by getting out of the habit of sending freaks to the U. S. Senate.

FOR SCIENTIFIC RESEARCH.

Saugerties, N. Y., March 6, 1902.
Editor, Gazette, Janesville, Wis.:

In your paper of Feb. 10th, I see a reference to one who offered himself for scientific research, and I ask space in your columns for a few remarks on the subject.

In this article I do not wish to discuss the sanity or insanity of an individual, nor his sinfulness or insincerity, because these are matters of comparatively small moment. But there are issues of inestimable importance to mankind, involved, (as it seems to me), in the broad consideration of voluntarily submitting to physical experiment, that our race may be thereby benefited.

That experiment on living animals are unreliable or precedents in the treatment of human disease, is conceded by almost every one—viscetionists included. Many, even among the pro-viscetionists, admit that operations made on live beasts have caused when applied to man, the serious illness, or even the death, of countless human beings.

How then shall the experiments advance the healing art? He has, let us suppose, a pet theory. It is good as a theory; but it will not aid the physician in the prevention and cure of disease, until it is put in practice. Shall the experiments go to the wards of the paupers' hospital, or to some lunatic asylum, and try there his cherished theory, on human beings, unable to defend themselves? That this is done again and again we know, and the practice has come to be called "human vivisection." We can classify it, although we cannot excuse it. Yet experimenters are driven to these more than questionable methods because they honestly wish to benefit mankind. It has seemed hitherto, a choice of evils, yet this need not continue. If philanthropic persons would offer themselves as material for research, The ideal experimenter would operate on himself, as Simpson did in the discovery of chloroform. Experimenters, however, are as a rule unwilling to try their experiments on themselves—in many instances the nature of the operation would make it impossible—and therefore the next best thing is to find others who will freely consent to act as subjects. We should take into consideration that almost all operations could be performed under complete anaesthesia, and that in a great share of cases the danger to life and limb would be trifling. The risk is too great, of course, to run when the patient is ignorant of the intended operation; yet in reality it is slight and no blame should rest on the operator, and in this way the healing art might soon be materially advanced. In the very limited number of cases where the danger to the subject is great, we should remember that those voluntarily risking their lives in fire or water, to save others, are not rightly termed suicides, and that those who aid another in such a risk are not held accountable for its death.

JOHN VEDDER, M. D., President, New York State Anti-Viscetion Society, Saugerties, N. Y.

Cheap Homeseekers' Excursions via C. M. & St. P. Ry.

On the first and third Tuesdays of every month at one fare plus two dollars for the round trip, to points Northwest, West and Southwest, Ioway, Minnesota, North and South Dakota. Full particulars at passenger station.

HOMESEEKERS' EXCURSIONS VIA C. & N. W. R. R.

March 4th and April 1 and 15, May 6 and 20. On above dates the C. & N. W. Ry. will sell homeseekers' tickets to California at rate of one fare plus \$2 for round trip. Stop-overs allowed on going trip and privilege of diverse routes. For further information see ticket agent C. & N. W. R. passenger depot. Telephone No. 35.

HOMESEEKERS' EXCURSIONS TO CALIFORNIA VIA C. & N. W. R. R. March 18, April 1 and 15, May 6 and 20, 1902.

On above dates the C. & N. W. R. will sell homeseekers' tickets to California at rate of one fare plus \$2 for round trip. Stop-overs allowed on going trip and privilege of diverse routes. For further information see ticket agent C. & N. W. R. passenger depot. Telephone No. 35.

\$14.00 to Points in Minnesota, North Dakota and South Dakota via C. & N. W. R. R.

On March 11, 18 and 25; April 1 and 8, the C. & N. W. R. R. will sell one way settlers' tickets at above rate to all points in territory above mentioned to which regular selling rate is higher. For full particulars see ticket agent C. & N. W. R. passenger depot. Telephone No. 35.

COMING—"When Reuben Comes to Town."

SYMPATHY CREATED BY TINKER SMITH

Found Drunk, He Claimed, a Pain in His Back, and Imposed on a Good Woman.

Shortly after eight o'clock last evening a telephone call was sent to the East Side engine house by Mrs. F. M. Marzluff for the patrol wagon. She stated that there was a man down in front of her house who had hurt his back and could not move. She did not know his name but he was badly hurt and should be taken care of.

Chief Spencer telephoned Assistant Chief Osgood who lives quite near Marzluff's to go over and see the man and see if the wagon was necessary. Chief Osgood soon telephoned back that the man was hurt and to send the wagon. A patrol call was accordingly turned in and the wagon started out. In the meantime Chief Osgood and Mr. Marzluff had taken the man into Marzluff's house and laid him on a couch and when the wagon arrived he was lying there being treated to allay the pain he was in. He was lifted off the couch into the stretcher and tenderly carried out and put in the wagon to be taken to his home or the hospital. During all this time no one knew who the man was, but when he was put into the wagon the driver, Ben Barrage, took a lantern and looked into his face and discovered that it was Frank alias Tinker Smith with a jag on and who had sat down on Marzluff's lawn and who when found by Mrs. Marzluff stated he had hurt his back. He was soon righted up by the boys on the wagon and taken to the lock up and thrown in. This morning Chief Hogan presented him to Judge Fife who thought his back needed rest and gave him 5 days in jail and a fine of \$2 and costs, or 5 additional days.

FOR SCIENTIFIC RESEARCH.

Saunders, N. Y., March 6, 1902.
Editor, Gazette, Janesville, Wis.:

In your paper of Feb. 10th, I see a reference to one who offered himself for scientific research, and I ask space in your columns for a few remarks on the subject.

In this article I do not wish to discuss the sanity or insanity of an individual, nor his sinfulness or insincerity, because these are matters of comparatively small moment. But there are issues of inestimable importance to mankind, involved, (as it seems to me), in the broad consideration of voluntarily submitting to physical experiment, that our race may be thereby benefited.

That experiment on living animals are unreliable or precedents in the treatment of human disease, is conceded by almost every one—viscetionists included. Many, even among the pro-viscetionists, admit that operations made on live beasts have caused when applied to man, the serious illness, or even the death, of countless human beings.

How then shall the experiments advance the healing art? He has, let us suppose, a pet theory. It is good as a theory; but it will not aid the physician in the prevention and cure of disease, until it is put in practice. Shall the experiments go to the wards of the paupers' hospital, or to some lunatic asylum, and try there his cherished theory, on human beings, unable to defend themselves? That this is done again and again we know, and the practice has come to be called "human vivisection." We can classify it, although we cannot excuse it. Yet experimenters are driven to these more than questionable methods because they honestly wish to benefit mankind. It has seemed hitherto, a choice of evils, yet this need not continue. If philanthropic persons would offer themselves as material for research, The ideal experimenter would operate on himself, as Simpson did in the discovery of chloroform. Experimenters, however, are as a rule unwilling to try their experiments on themselves—in many instances the nature of the operation would make it impossible—and therefore the next best thing is to find others who will freely consent to act as subjects. We should take into consideration that almost all operations could be performed under complete anaesthesia, and that in a great share of cases the danger to life and limb would be trifling. The risk is too great, of course, to run when the patient is ignorant of the intended operation; yet in reality it is slight and no blame should rest on the operator, and in this way the healing art might soon be materially advanced. In the very limited number of cases where the danger to the subject is great, we should remember that those voluntarily risking their lives in fire or water, to save others, are not rightly termed suicides, and that those who aid another in such a risk are not held accountable for its death.

JOHN VEDDER, M. D., President, New York State Anti-Viscetion Society, Saugerties, N. Y.

FOR RENT

FOR RENT—Suite of eight rooms. Inquire at No. 111 East Milwaukee street.

HEALTH PARK FOR BADGER INVALIDS

SCHEME BEING PUSHED BY DR. W. P. ROBERTS OF THIS CITY.

He Has the Endorsement of Hon. A. P. Lovejoy and Other Prominent People Here, at Madison and at Evansville—Save Their Lives by Industry.

While the readers of The Gazette are conning the contents of their paper this evening let them pray for the success of the new association which is being organized in Madison, by a few well-known people of Janesville, Evansville and the Capitol City.

When Dr. W. P. Roberts, of this city found his offers along the line of proving Koch's tuberculosis contagion theory could not receive attention at the hands of our State Board of Health, he at once set about interesting a few philanthropic people—within his reach by personal interviews—along the line of establishing health parks for invalids in this state.

The doctor has never forgotten with what readiness the Hon. A. P. Lovejoy, took up and carried, to success his idea of flagging our public schoolhouses. In the following Assembly after the Bill had been legislated out of them. So he naturally appealed to "Uncle Allen" for counsel regarding the Health Park proposition, and found him as much interested in this most desirable philanthropy as he did in the Flag Movement.

This new movement with the promise from Mr. Lovejoy to help the organization to secure suitable lands for a State Health Park gave the project an impetus which has enabled Dr. Roberts to secure names of more than a score of very philanthropic incorporators in Rock and Dane counties. This association is incorporated under the recent laws of Wisconsin, and the first meeting is being held in Madison as we go to press—March 10, 4 p.m. The object of this association we understand is to establish health parks in this state, and assist invalids, especially those suffering from weak lungs—to avail themselves of an opportunity to save their lives by their own industry.

This idea was incorporated into the American Invalid Society of Boston of which Dr. Roberts was the originator. He believes in giving those less fortunate than ourselves a chance to regain health by organized effort. It was this idea when laid before Mr. Lovejoy, who exclaimed, "Saved by industry. That meets my views, you can count on me in this proposition, and I will agree to find suitable land where we can establish the Wisconsin Health Park. I like your idea of calling things by practical names. Health Park is twice as good a name as it would be to call it a hospital, or sanitarium. Yes, your idea is a good one, and we will begin at once and grow into something the people of Wisconsin will all have an interest in. You go ahead and see what you can do to get a start."

Here are some of the names of those who signed the paper Dr. Roberts circulated:

Hon. A. P. Lovejoy, Dr. Q. O. Thielander, Rev. Robert Denison, Judge J. W. Sate, L. B. Carlo, John Thorschugood, Stanley Smith, W. Jeffers, Revs. A. H. Barrington and J. T. Henderson, Richard Valentine, J. M. Postwick, Edwin F. Carpenter, A. F. Hall, Silas Hayner, J. T. Wright and H. L. McNamara. Also Mayor Hon. P. C. Wilder of Evansville, and in Madison, ex-Judge J. H. Carpenter, Rev. Dr. E. G. Updike, Rev. F. A. Gilmore, Hon. H. M. Lewis, Prof. J. B. Parkinson, Dr. A. P. Wilder, Justice Joseph Messerschmidt, John M. Clifford, Prof. A. A. Bruce, Drs. C. H. Hall, E. A. Brown, W. C. Abaly and A. L. Bents.

In fact nearly every person to whom Dr. Roberts showed the plans thought the move a good one. Every editor so far has promised the free support to aid in the movement. Any person whomsoever who contributes \$1 per year becomes an active member. Any one contributing \$5 or more yearly will be an honorary member and those contributing \$100 or more will be life members. Since this is a philanthropic association all are invited to contribute.

DR. W. P. ROBERTS.

Bar Association Meeting There will be a meeting of the Rock County Bar Association at the judges' chambers in the court house at 2:30 p.m., Tuesday, March 11th, 1902, for the purpose of taking appropriate action regarding the death and burial of the late B. B. Eldredge. Members will please attend promptly at the hour named prepared to march from the place of meeting to the residence and attend the funeral collectively.

WM. SMITH, President.

E. D. M'GOWAN, Secretary.

Masonic Notice.

There will be a special communication of Janesville Lodge No. 55 F. and A. M. Tuesday, March 11, at 2 p.m., for the purpose of attending the funeral of our late Brother, B. B. Eldredge. Members of Western Star Lodge No. 14, and visiting brethren are cordially invited.

F. W. DOUGLAS, W. M.

There will be a meeting of the sewerage committee tonight at the city attorney's office to consider the sewerage report and make recommendations to be presented at its next meeting.

Heinz baked beans. Heinz bottled goods. Heinz pickles. W. W. Nash.

We are showing some handsome new patterns in Ingrain, Brussels, Velvet and Moquette carpets. T. P. Burns.

C. E. Jenkins today received a letter from John Holden, mailed at West Court Callan, Ireland, stating that they had a safe passage from New York to Liverpool on the Lusitania, the run being made in six days and four hours.

Warren Crossman, with the Ferris Comedians, and Harry North, who is attending the University at Madison, spent Sunday with their parents, Mr. and Mrs. B. P. Crossman, 65 Palm street.

On Tuesday, March 18, Ira M. Fisher will sell at public auction on the Henry Austin farm, one mile west of this city a lot of farming implements, seventy-five head of cattle, seventy-five head of sheep and twelve head of horses; also many other articles.

The many friends in this city of Mrs. Frank Shekey of Oshkosh, will be palmed to hear of her death, which occurred at her home in that city Saturday. Mrs. Shekey had visited here quite often, and was well known, her husband being a brother of A. H. Shekey and Mrs. Anna Shekey of this city.

Saturday evening about thirty of the friends of Miss Bertha Rutter very pleasantly surprised her at her home on Center street, those present having a very jolly time. Games of various kinds were played and thoroughly enjoyed. Very tempting refreshments were served and in departing all wished the genial hostess many returns of the happy event.

H. H. Clough of Beloit was in the city today in consultation with the Hayes Bros. in regard to the work on the electric line. Mr. Clough stated that the grading would be taken up here as soon as the frost was out of the ground and pushed to completion at once. The line from Beloit to Rockford is practically completed and the power house is being rushed along so they may be able to have cars running by May 1st.

Emil Meyer, who resides on Olive street in this city was quite badly hurt last week at Shullsburg, where he is employed as engine tender by the St. Paul road by falling from a bridge. He lost his footing and fell head foremost to the ground landing on his face, breaking his nose and cutting him up badly. He is now doing nicely and will be about in a short time.

Thieves Enter Grocery Store.

A. C. Munger's grocery store was entered Sunday night by thieves who evidently were frightened away before they could get what they were after.

So far as Mr. Munger could tell they secured a little change from the cash register and possibly a little tobacco and a few cigars.

The thieves gained an entrance to the store by taking out a large pane of glass from the bottom of the north window on the alley facing in the rear of the store.

At J. M. Boswick & Sons', Wednesday, the 12th, special sale of muslin underwear. More in large ad.

ANOTHER CHANCE FOR A BIG FACTORY

American Cement Post Co. of Athens, Mich., looking for a location in City of Janesville.

Janesville will soon have a chance to say whether or not they wish an industry to stay with them from one hundred to one hundred and fifty hands at the start and turn out about three hundred and fifty carloads of finished material each month to locate here.

There arrived in the city this morning at 10:35 from Chicago, over the St. Paul road, H. M. Morganthalier of Cincinnati, A. C. Wisner of Battle Creek, Mich., and L. C. Cole of Toledo who are interested in the locating of the new enterprise in the city. They were met at the station by Messrs. Michael and Dennis Hayes and T. S. Nolan and taken for a ride around the city looking over the different locations.

These gentlemen are interested in the American Cement Post Co., of Athens, Michigan, who manufacture line posts, end posts, corner posts, hitching posts, mail box posts and intact any kind of a post used in building fences.

The posts are a structure of artificial stone formed from concrete through process of moulding and the application of heavy pressure. Twisted iron bars run lengthwise through the posts and heavy iron staples connect with them to allow the wire to be fastened to the posts. They weigh about fifty pounds each.

Some of the advantages claimed for these posts are that they cost no more than good wood posts, are strong and more attractive in appearance, can be placed greater distances apart, are indestructible and will last forever and fasten any wire fence made.

The three gentlemen here today in the interests of their company are all wealthy and abundantly able to carry out anything they undertake. They do not propose to move the business from Athens, Mich., but to start a much larger plant in this city as their business is increasing at such a rate that they will have all both plants can attend to. They expect to use six tons of iron and two carloads of wire each day.

Their business is no fancy, but a practical growing one and one well worth having in any city. In order to locate this plant in Janesville the gentlemen ask a bonus of \$10,000 and ten acres of land for a site. If this can be secured they will build and equip the works. Several responsible gentlemen in this city in co-operation with the St. Paul road have had this business in view for some time and believe it to be the best thing offered this city in years.

In order to get this industry it will be necessary to raise this bonus and furnish the land. The matter will probably be brought up at the meeting of the Janesville Business Men's association at the municipal court this evening. If the business is as it is represented the people of Janesville should make every effort to secure it.

IN THE VALLEY OF THE SHADOW

Funeral of Miss Alice Keating.

The remains of the late Miss Alice Keating, who died in Sioux Falls, S. D., arrived at 10:30 Sunday morning and were taken direct to Mount Olivet cemetery for interment. The remains were accompanied by Mrs. Mary Keating, mother of the deceased, who resides in Sioux City; Miss Elizabeth Keating of Fargo, N. D.; a sister; and James Keating of Denver, Colo., a brother of the deceased.

Those who attended the funeral from out of town were Mrs. Flynn and Miss Marie Flynn of Marion, Wis., Mrs. J. C. Quirk and Wm. Croak of Rockford, Ill., Miss Johannah Croak, Miss Little Croak and Joseph Croak of Evansville, Wis.

Funeral of Harvey Pearl.

The funeral of the late Harvey Pearl was held Saturday afternoon at one o'clock from the home of his father, Wm. Pearl, on the Madison road, Town of Janesville. Mrs. Pearl, the wife, is very low with pneumonia so that it was thought best to hold the services from the home of his father. The services were conducted by the Rev. J. T. Henderson and the interment was made at Oak Hill cemetery. The pall bearers were Claude Dunham, John Connor, Harry Luck, Cass Garlock, Frank Rock, Patrick Arnee.

The floral offerings from the friends and neighbors were profuse and beautiful showing the thoughtfulness of his many friends.

Funeral of Mrs. James Burke.

The funeral of the late Mrs. James Burke, who died Saturday, was held at St. Mary's church this morning at 9:30 o'clock. Rev. W. A. Goebel officiating. The remains were taken to Watertown, Wis., for burial, on the 12:45 train this noon.

Frank Putnam Dead at Manila. Word has been received in this city that Frank Putnam died at Manila in January after a month's illness with consumption. Mr. Putnam enlisted in the regular army as a cook, two years ago, about the same time that Charles Caniff, a son of J. A. Caniff, the West Milwaukee street merchant did. Putnam was a well-known Janesville boy and for some time worked in the East Milwaukee street restaurant of Cornelius McPherson. His many friends in this city will be pained to hear of his death.

At J. M. Boswick & Sons', Wednesday, the 12th, special sale of muslin underwear. More in large ad.

Haviland Dinner Sets.

The balance of this week we will allow 25 per cent reduction on Haviland dinner sets. All goods marked in plain figures. C. S. & E. W. Putnam.

NEWS OF A PERSONAL NATURE

Dr. Edden is ill at his home on South Bluff street.

Mrs. James Harris departed on the morning train for Madison.

Mrs. John McNaught leaves tonight for her home in Fairbank, Minn.

Mrs. Dr. W. H. Palmer departed on the morning train for Chicago.

Dr. L. P. Mearer left this morning on a business trip to Edgerton.

Mr. Merrick of the firm of Merrick & Hudson went to Madison this morning.

Mrs. S. C. Cheney is the guest of Mrs. C. C. Johnson at the Hotel Myers.

Harry Carter and George McKey came down from Lake Koshkonong this morning.

H. S. McGlinn left this morning for Windsor and other points in northern Dane county to receive tobacco.

Colin Samuels came down from Madison Saturday afternoon to spend Sunday with Janesville friends.

Attorney George W. Sutherland is transacting business in the northern part of the state.

Henry C. Stearns, formerly of the firm of Stearns & Baker of this city is seriously ill at his home in Shullsburg, Wis.

For This Week Only.

During the balance of this week we give 25 per cent reduction on all fancy chairs, side boards, book cases, &c. Sale is for cash. C. S. & E. W. Putnam.

SPECIAL MARKET REPORT

From the Hadden, Rader Co., 204 Jackson Block, Janesville.

CHICAGO Mar. 10, 1902.

Open High Low Close

WHEAT

THEIR SIGHT RESTORED.

BY THE WONDEROUS POWER OF MAGNETISM THROUGH THE HANDS OF THE BOY PHENOMENON.

Miss Ida Pugley of 53 North St., Wrote a letter to the Boy Phenomenon without her glasses, telling him she was able to see and tell the time of day, something she had never been able to do before since she was afflicted.

Well Known Lady suffering with Paralysis of Optic Nerve and astigmatism. Made to see clearly After Two Treatments.

Every day is swelling the record of phenomenal cures accomplished through that strange and subtle power vital magnetism, as possessed and exemplified daily by the Boy Phenomenon, now at the Hotel Myers. Some of these cases read like chapters out of a miraculous past, when the laying on of hands cured the sick, halt and blind. In those days it was considered supernatural, but today we know there are certain persons who are born with an unusual amount of vitality, and science has demonstrated that his vital principle is life itself, and when possessed by one, who has an excessive amount of it, can be transmitted to others who lack that element, and thereby restore them to health.

A person who can wield such an influence in a community so intellectual as Janesville is certainly no ordinary man. He stands like a tower above and over all other healing agencies, wonderfully gifted by nature, and possessing the greatest magnetic power ever bestowed upon a human being, he is having an unbroken succession of the most stupendous achievements ever accorded a living man.

Nobody can form an opinion of his wonderful cures unless they actually witness them. Hundreds of people who have been bedridden for months and years, and others who have not taken a step without crutches, suffering with rheumatism, paralysis, nervous prostration, deafness and other diseases have been and are daily being cured by him and restored to perfect health.

Janesville, Wis., March 8, 1902.

I have been treated by the Boy Phenomenon for my eyes which have troubled me since I began to go to school, seven years ago. Every year growing worse until, I took my first treatment. Now I can read with perfect ease at arm's length without my glasses. This treatment has worked wonders in my case and I want people to know of the good being done by the boy, so they may take advantage of this grand opportunity to be cured before it is too late.

I am writing this without my glasses.

IDA PUGSLEY, 58 North St.

MRS. CARRIE PUGSLEY, her mother.

Another of the many marvelous cures accomplished by the Boy Phenomenon the past week—marvelous, because of the startling rapidity in which it was affected—is that of Miss Ivy Dobson, 160 South Main street, who has suffered the past fifteen years with partial paralysis of the optic nerve and astigmatism—remarkable because of the apparent hopelessness of the case, after years of useless medicine and treatment by the old methods her case was indeed pitiful and to think that this great change was wrought within the past week. The following letter explains itself:

To the Public: Fifteen years ago I began losing my eyesight, which rapidly grew worse until I was nearly blind. The trouble was caused by partial paralysis of the optic nerve and Astigmatism. I tried numerous doctors and specialists without getting any benefit whatever and was told that nothing on earth would help me. Last week I had my first treatment by the Boy Phenomenon and after my second treatment the improvement was something wonderful. I am enabled to recognize faces across the room and can now read print, my eyes are fifty per cent. stronger and improving in every respect. The pain in my head is entirely gone. The treatments have been so gratifying that I feel in duty bound to make this statement both in behalf of the afflicted and this wonderfully gifted young man.

(Signed),

MISS IVY DOBSON.

Those who desire the services of this wonderfully gifted young man should lose no time in calling, as his time is being rapidly filled. While he will remain in Janesville several weeks longer no new cases will be taken after this week. His office hours at the Hotel Myers are from 10 a. m. to 8 p. m. daily except Sunday.

Builds up the system, puts pure, rich blood in the veins; makes men and women strong and healthy—Burdock Blood Bitters. At any drug store.

"I suffered for months from sore throat. Electric Oil cured me in twenty-four hours." M. S. Gist, Hawesville, Ky.

No matter how long you have had the cough; if it hasn't already developed into consumption Dr. Wood's Norway Pine Syrup will cure it.

Years of suffering relieved in a night. Itching piles yield at once to the curative properties of Donn's Ointment. Never fails. At any drug store, 50 cents.

A CARD.

We, the undersigned, do hereby agree to refund the money on a 50 cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 50 cent bottle to prove satisfactory or money refunded.

J. P. Baker, Geo. E. King & Co., E. H. Hinman, Smith's Pharmacy, People's Drug Co., H. E. Hauser & Co., Janesville, Wis.

Smith's Pharmacy, Kodak Agents.

REPUBLICAN CITY CONVENTION

The Republican City Convention will be held at the Council Chamber in the City of Janesville, on Friday, March 21, at 2 o'clock p. m., to nominate candidates to be voted for at the ensuing municipal election, and to elect a City Committee.

Nominations are to be made for the following offices:

Treasurer, City Attorney, School Commissioner-at-Large, Justice of the Peace.

The several wards will hold their caucuses on Thursday, March 20, 1902, and elect delegates to said convention as follows:

First ward, six (6).
Second ward, ten (10).
Third ward, ten (10).
Fourth ward, seven (7).
Fifth ward, three (3).

All caucuses will open at 7:30 o'clock p. m., and continue one hour, as provided by law.

Dated March 8, 1902.

F. H. KOEBLIN, Chrm.

WARD CAUCUSES.

First Ward.

The First ward Republican caucus for the nomination of ward candidates, as follows: An Alderman, Supervisor, School Commissioner, and a Constable, and to elect six (6) delegates to the City Convention, to be held for the nomination of candidates to be voted for at the ensuing City election, and for the transaction of such other business as may properly come before the caucus, will be held at the West Side Fire Station, in this city, on Thursday, March 20, 1902, beginning at 7:30 p. m. and continuing one hour, as provided by law.

Second Ward.

The Second ward Republican caucus for the nomination of ward candidates as follows: An Alderman, Supervisor, School Commissioner, and a Constable, and to elect six (6) delegates to the City Convention, to be held for the nomination of candidates to be voted for at the ensuing City election, and for the transaction of such other business as may properly come before the caucus, will be held at the East Side Fire Station, in this city, on Thursday, March 20, 1902, beginning at 7:30 p. m. and continuing one hour, as provided by law.

Third Ward.

The Third ward Republican caucus for the nomination of ward candidates, as follows: An Alderman, Supervisor, School Commissioner, and a Constable, and to elect ten (10) delegates to the City Convention, to be held for the nomination of candidates to be voted for at the ensuing City election, and for the transaction of such other business as may properly come before the caucus, will be held at the voting booth on Court street, in this city, on Thursday, March 20, 1902, beginning at 7:30 p. m. and continuing one hour, as provided by law.

Fourth Ward.

The fourth ward Republican caucus for the nomination of ward candidates, as follows: An Alderman, Supervisor, School Commissioner, and a Constable, and to elect seven (7) delegates to the City Convention, to be held for the nomination of candidates to be voted for at the ensuing City election, and for the transaction of such other business as may properly come before the caucus, will be held at the Fifth ward polling booth, in this city, on Thursday, March 20, 1902, beginning at 7:30 p. m. and continuing one hour, as provided by law.

Fifth Ward.

The Fifth ward Republican caucus for the nomination of ward candidates, as follows: An Alderman, Supervisor, School Commissioner, and a Constable, and to elect three (3) delegates to the City Convention, to be held for the nomination of candidates to be voted for at the ensuing City election, and for the transaction of such other business as may properly come before the caucus, will be held at the Fifth ward polling booth, in this city, on Thursday, March 20, 1902, beginning at 7:30 p. m. and continuing one hour, as provided by law.

Deafness Cannot Be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one remedy for deafness, that is by a constitutional remedial. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When the tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be removed it will be transferred to the normal condition, hearing will be destroyed forever; when cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by catarrh, that can be cured by Hall's Cutcher Cough, Send for circulars from

CHILDREN LIKE IT.

"My little boy took the eruption night," says F. D. Reynolds, of Milwaukee, O. "I never saw him so bad. I had him lie back the all night. I thought he would die but a few doses of One Minute Cough Cure relieved and sent him to sleep. That's the last we heard of the stuff." One Minute Cough Cure is absolutely safe and acts at once. For coughs, colds, croup, asthma and bronchitis.

A FLAT FAILURE

That's what any man is when his nerves give out. He loses courage and strength to act. His mind gets hazy and his will fails weak. Energy and hope fade away. Success depends upon the nerves. One man succeeds because he has nerve strength; another fails because he lacks it.

Palmo Tablets

make men nerve strong. This medicine is the proper one to give the nerves weak strength, vim and energy.

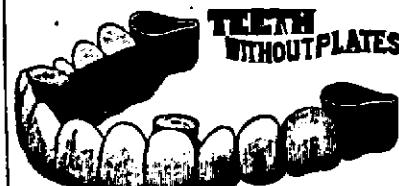

It not only builds you up, but checks the drains which may be responsible for the weakness.

Erect Form 859 Improved, for average figures

Erect Form 972 in bustle, for large figures, long over abdomen and bust, full hips and abdomen

Erect Form 882 for stout figures, long over abdomen and bust

URGE LEGISLATION FOR PURE FOOD

Business Men Seek Measure to Put a Stop to Adulteration.

ARE AGREED ON THE MANN BILL

Allege That Dishonest Merchants Endanger Public Health by Palming Off Inferior Goods — Say Unscrupulous Men Should Be Punished.

Washington, March 10.—Graeme Stewart and a delegation of Chicagoans are here for the purpose of appearing before the House committee on interstate commerce to urge the passage of the amended Mann pure food bill.

All are agreed upon the measure introduced by Representative Mann in its amended form. It invests the Secretary of Agriculture with the duty of preventing the adulteration and misbranding of food products and beverages. It directs the Secretary to appoint a food commissioner, together with a corps of chemists, whose duties it will be to examine any article of food believed to be adulterated.

According to the provisions of this proposed law goods sold in packages are placed under the police regulations of the states. It also imposes a heavy fine upon persons who are convicted of an attempt to sell adulterated articles of food and drink, and the deleterious foods will be confiscated by the government in the case of convictions under the proposed law.

The members of the delegation will appear before the committee to-morrow and urge the adoption of the Mann bill. They will point out the importance of laws which prevent unscrupulous dealers from taking advantage of the public in palming off goods which are not what they are represented to be. They will argue that the time has arrived when dishonesty of this character must be stamped out, to protect honest merchants and food producers, who are placed at a great disadvantage by the practices of those who do not hesitate to endanger the health of the people for the sake of a larger profit on their goods.

The delegation will also urge the adoption of this measure on the ground that its adoption will prove greatly beneficial to the health of the entire country. The agitation for pure food legislation has been going on for years, and there was fear on the part of those interested that their efforts would fail when it was discovered that the Brosius bill introduced last year contained vicious provisions, which gave the law officers of the government the right to do almost anything they pleased in the way of arbitrary prosecutions for alleged adulteration of food products. These vicious provisions have been omitted from the Mann bill.

Lincoln Homestead Taxes Paid.

Hodgenville, Ky., March 10.—The old Lincoln homestead near this place will not be sold at public sale for taxes, as has been advertised. David Crear of New York city sent a check for the amount of taxes due. Men all over the country have written officials of the county, expressing a desire to buy the farm. Some suggested that a public park be made of the farm and others that the government buy it and convert it into a home for old and disabled soldiers, while some proposed that it be converted into a home for ex-slaves. A farmer in Kansas said he wished to buy the farm for the purpose of raising corn, as he thought a farm which could produce such a wonderful man ought to be able to make a good crop of corn.

Beaver Falls Has \$75,000 Fire.
Beaver Falls, Pa., March 10.—The Hanold Block was destroyed by fire. The loss on the building is \$20,000. Of the tenants, Smith & Finklehor, tanners manufacturers, loss \$40,000; McPherson's wire mat factory, \$5,000; McCandless Brothers, grocery, \$2,500, and Edward Keyser, feed store \$3,000. The losses bring the total to \$75,000. The insurance is unknown.

Anti-Vaccinationist Improves.
Boston, Mass., March 10.—Dr. Emanuel Pfeiffer, the anti-vaccinationist who contracted smallpox by a visit to the hospital at Gallup's Island on Jan. 23 and who has been quarantined at his Bedford residence since Feb. 8 by order of the town authorities, is now convalescent and expects to be at his Boston office again in the course of a fortnight.

Judge Sears Resigns.
Chicago, March 10.—Nathaniel C. Sears, who has been judge in the Appellate Court for five years, has written to Gov. Yates resigning his position on the bench. He will take up a partnership in the law firm of Meagher & Whitney on April 1.

Suits Against Railroads.
Chicago, March 10.—Suits will be commenced against several of the roads between Chicago and Kansas City for violation of the interstate commerce law as soon as Attorney Day of the commission has prepared the necessary documents.

New Trial for Jessie Morrison.
Topeka, Kas., March 10.—Jessie Morrison, who was convicted of murder for the killing of Mrs. Clara W. Castle of El Dorado a year ago, was granted a new trial by the Supreme Court. The court held there was error in the impaneling of the jury.

Shot While Hunting.
Kenosha, Wis., March 10.—James Larsen of Winthrop Harbor was terribly wounded by the accidental discharge of a gun while hunting. The ball passed into Larsen's foot, causing a serious wound. Even if he survives the injuries he will be maimed for life.

Russia Safe in Port.
Horta, Azores, March 10.—The Cunard line steamer *Russia*, which was disabled on the passage from New York to Liverpool, has arrived here, being towed into port by the British steamer *William Cliff*. All on board are well.

Wisconsin Freight Wreck.
Baraboo, Wis., March 10.—A freight wreck occurred on the Northwestern road near Ablemans, demolishing thirteen cars loaded with grain and flour. The estimated loss is \$5,000.

Plates Damage Collar Factory.
Bennington, Vt., March 10.—The main building of the Unity Collar and Cuff company in North Bennington was burned. The loss is about \$50,000, with insurance of \$10,000.

Boy Killed in Mimic Battle.
Denver, March 10.—Stewart Hill, age 9 years, died here from the effects of a bullet wound in the breast, received while engaged in a mimic Indian battle. James Butson, aged 12 years, is under arrest, charged with murder. Four boys, all 12 years of age, or under, stationed themselves behind barricades about thirty yards apart, and had exchanged about twenty shots when Hill fell, pierced through the lung. According to the other boys Hill had stepped out in the open, when Butson took deliberate aim and fired.

Cramps Entertain Russians.
Washington, March 10.—Count Casini, the Russian ambassador, accompanied by his first secretary, Mr. Theodore Hansen; Mr. Alexander Zelenoy, second secretary; Mr. Rogestvensky, Lieut. Co. Raspopov, Baron Fersen and Mr. Koutchikovsky, all of the embassy staff, have left Washington for Philadelphia, where, in company with the captain and officers of the new Russian battleship Retvizan, they will be entertained at dinner by the shipbuilder, Charles Cramp. There will be a hundred guests to drink to the future shipbuilding of America, and, incidentally, luck to the war vessel.

Close Rural Delivery Debate.
Washington, March 10.—The House on Saturday closed the general debate upon the bill to classify the rural free delivery service and place the carriers under the contract system. Mr. Simms (Tenn.) rose to a question of privilege in connection with the adoption of the conference report on the permanent census bill. He contended that the statement of the conferees with reference to section 5, which originally placed all the employes of the bureau at the time of the passage of the act under the protection of the civil service has "misled and deceived" the House. The speaker held that as the whole subject had been disposed of no question of privilege was presented. Later in the afternoon a resolution was introduced in the House by Mr. Hughes of West Virginia stating that it was the intention of Congress in passing an act creating a permanent census bureau to place in the classified service of the government all the employes of the census office above the grade of unskilled laborer whose names were on the rolls of the census at the date of the approval of the act. The resolution further provides that this intention shall be carried out by the passage of the resolution.

Present from Diaz.
Washington, March 10.—Mrs. Roosevelt has received, through John Barrett, a delegate to the Pan-American Congress, a gift from President Diaz of Mexico, consisting of three pieces of exquisitely drawn linen. They have been pronounced the most beautiful specimens that have ever come to this country and were sent to Mrs. Roosevelt as a special recognition of her encouragement to the linen workers in Porto Rico. It will be remembered that all linen purchased for the White House recently was ordered from that island. Mrs. Roosevelt has sent a personal letter of thanks to the aged and gallant executive.
